## WALL STREET CRASH!

### Black Thursday in America

Stocks Plunge and Eleven Commit Suicide

Stocks today in New York fell to a record low, the market being down 10 1/2% in the worst business day since the crash of 1907. The American people, shocked and dismayed, looked on from their homes and offices as the great city of New York was transformed into a scene of confusion and chaos.

The New York Stock Exchange closed at 11.40, when the Dow Jones Industrial Average stood at 230.44, a drop of 11.73 points from the previous day's closing.

London, 25th October. The news of the crash in New York has caused a general feeling of gloom and uncertainty in this country. The London Stock Exchange closed at 10.15, with the Dow Jones Industrial Average at 10.15, a drop of 1.15 points from the previous day's closing.

What Went Wrong?  
The main reason for the crash is the overvaluation of stocks in America. The market was inflated to an extraordinary degree by the excessive issue of new shares and the speculative buying of these shares by investors who were not prepared to hold them for the long term.

Other News  
The Government has announced that it will increase the issue of new shares to £100 million. This will help to meet the needs of the Government and the public.

COLEMAN'S "WIGGERS"
